- Complete review of VPA IMF structure

Third round

- Implemented in 2030
- Referring to 2024 situation
- Open space for VPA stakeholders comments on the IMF

Disaggregations of indicators (social groups and FSOs types)

Indicator

1.1.3. Number and % of trained workers and FSOs on OSH practices

General values

Total number of trained workers

Total number of trained FSOs Value disaggregations

Number of trained Indigenous people

Number of trained women

Number of State Forest concessions receiving training on OSH

Number of Amerindian villages receiving training on OSH

... (other FSOs types)

What main aspects do we need to monitor for women and indigenous people?

Access to capacity building

Participation into stakeholders engagement processes

Livelihood improvement

Access to information

Women

VPA IMF STRUCTURE

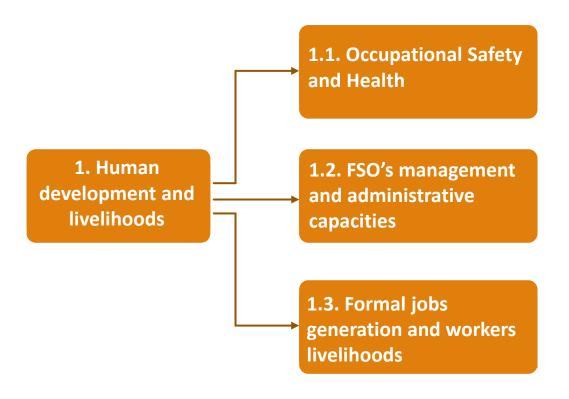

IMF structure

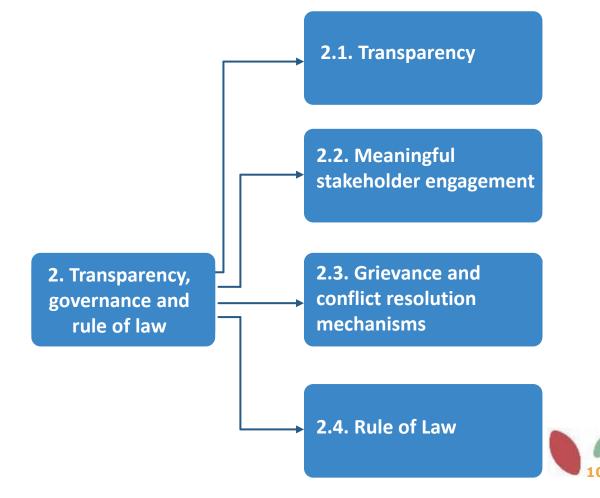

4 impact areas

14 sub impact areas

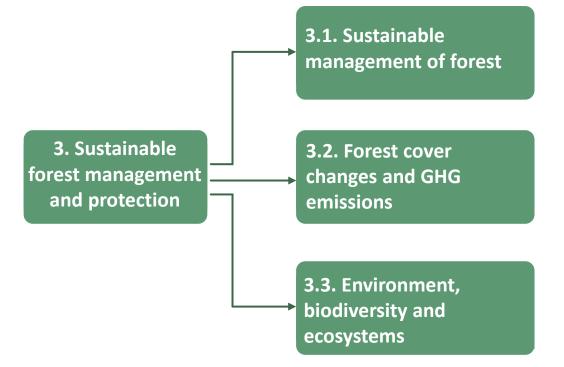

46 indicators

Impact and sub-impact areas

IMF IMPLEMENTATION

Implementation consortium and team of experts

Commissioned by the JMRC

VPA IMF data collection and report elaboration

GFC focal point

Consultants' consortium

Required expertise areas:

- Data analysis
- Microeconomics
- Environment and forest management
